However, if you want to see a list of dependent variables impacting Brava's celebration, you can check out the work of the Brazilian researchers at the University of Brasilia. They conducted a study on the impact of the 2014 World Cup on the lives of Brazilians. The researchers found that the tournament had a significant impact on the lives of Brazilians, particularly in terms of social and economic factors. For example, the tournament led to an increase in social spending and a decrease in economic inequality. This was due to the government's investment in infrastructure and social programs during the tournament.
