What is the ratio of 3/2 to 5/4? [Solved] - Cuemath
The given ratios are 3/2 and 5/4. To find the ratio of 3/2 to 5/4, we divide 3/2 by 5/4. This is equivalent to multiplying 3/2 by the reciprocal of 5/4, which is 4/5. So, the ratio of 3/2 to 5/4 is (3/2) * (4/5) = 12/10 = 6/5.

The given ratios are 3/2 and 5/4. To find the ratio of 3/2 to 5/4, we divide 3/2 by 5/4. This is equivalent to multiplying 3/2 by the reciprocal of 5/4, which is 4/5. So, the ratio of 3/2 to 5/4 is (3/2) * (4/5) = 12/10 = 6/5.

Each Minesweeper game starts out with a grid of un-

marked squares. After clicking one of these squares, some of the squares will dis-

appear, some will remain blank, and some will have numbers on them. It's your

job to use the numbers to figure out which of the blank squares ha-

ve mines and which are safe to click.
