[Meteor - National Geographic Society](#) : encyclopedia : meteor

A meteor, sometimes called a shooting star or a falling star, is actually a space rock that is crashing through Earth's atmosphere. This meteor is streaking across the sky above Chelyabinsk, Russia, in 2013. A meteor is a streak of light in the sky caused by a meteoroid crashing through Earth's atmosphere.

If you stumble upon an old website with a broken Flash title you'd like to play, you can do so by installing Ruffle on your computer. There are browser extensions for Chrome and Firefox. Just install the extension and any Flash content that you run into on the web, new or old, will automatically open in the emulator.
