gt;<p></p><p>Not Recommended 0.6 hrs on record</p><p></p><p>Terrible game.</p><p></p><p></p><p></p><p>I just bought this, as 9 , £ I was looking for a game that is exactly this premise. Alas, when I found this game, I bought it 9 , £ and I was extremely disappointed. Just loading up the game took forever, and I kept having to close and reopen 9 , £ it. When it finally opened, it took 17 minutes just to do that. Yeah. Now it's not like I have 9 , £ a terrible laptop, my laptop is really good and I've never had any issues with such a thing. Then, upon 9 , £ opening the game, I couldn't look around because the default settings were set to ultra. For the record, I don't 9 , £ really have an issue with game devs doing this, but it leaves a bitter taste in your mouth. I had 9 , £ to set the quality to very low and even then it was still so laggy. It was 2 fps at 9 , £ the most () Tj T* BT

very low so 9 , £ it was quite literally just pixels. The game was also very repetitive, so even if you have a NASA super-computer 9 , £ you will get bored of this really quickly. I do not suggest this to anyone, no matter how enticing it 9 , £ looks. It was terrible and so incredibly frustrating; especially because I kept having to meddle with the settings and make 9 , £ the game actually playable (s) Tj T* E

r and also 9 , £ happen to have amnesia this game would be quite enjoyable, but unfortunately I see a lot of people having the 9 , £ same disappointment as I am. I really wish I could have this refunded, even just half of the money I 9 , £ spent on this. I'm unsure if Steam would let that happen, so for now I just suggest you don't get 9 , £ this game unless you get it free somehow.</p>
